# RED STAG CHILE

## CENTRAL VALLEY, PATAGONIA, CHLE

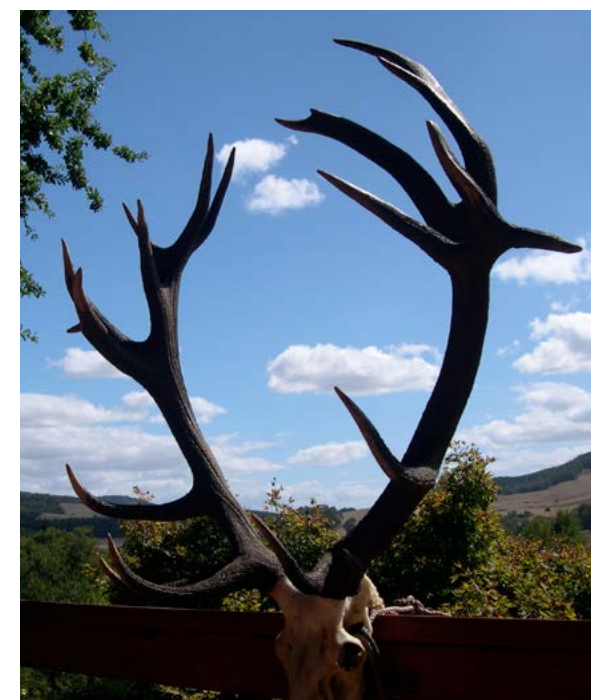

**O**ur Red Stag Chile program offers exclusive opportunities to hunt for the enormous Red Stags that roam the Central Valley of Chile. A combination of abundant food and great habitat along with more than 80 years of selective herd management, produces some of the largest wild stags in the world, comparable only to certain regions of Eastern Europe, with many of these trophy bulls making the record books over the years.

These Chilean stags are completely wild and all hunts are fair chase on an unfenced ranch. No more than six mature stags are harvested annually, so the opportunity to hunt these stags are in high demand.

Each hunter will be accompanied by an individual guide. These experts are all members of the same family and have an intimate knowledge of the area. The terrain includes valley, rolling hills, and wheat fields interspersed with thick stands of dark timber. Open fields and meadows make it easy to move around, and nothing is more exciting than seeing huge mature stags roaring at close range through the early morning mist.

Your base is a beautiful family estancia, where the owners look after small groups of guests. The lodge, built from local stone and wood, overlooks the mountains and the main hunting grounds. In the evenings guests enjoy traditional Asados and delicious home cooked meals, complimented by fine Chilean wines.

## WHY CHOOSE RED STAG CHILE?

- Red Stag Chile is the most exclusive red stag hunting venue in South America, offering extremely limited access to some of the largest, wild, free-range red stags in all of the world.
- The ranch and all hunting is family run, your guides and hosts are the owners, and have an intimate knowledge of the areas and the animals that is second to none. They will work with you to locate and glass animals in order to find the best, mature specimens for you to harvest.
- You will be pursuing mature red stags, with harvested animals being over 9 years of age along with massive body size and antlers to match. The management program which has been in place for nearly 80 years ensures incredible specimens are taken, year after year. The fee is a Flat Rate, and will not change based upon the size of the animal harvested.
- Located in the Central Valley of Chilean Patagonia, the ranch encompasses over 20,000 acres of pristine agricultural ground and woodlands, creating the perfect environment for the stags to develop into some of the largest, truly wild specimens roaming the earth today.
- The soft rolling hills and countryside offer a more physically relaxed hunt as compared to some of the more rugged areas in the country.
- In addition to spot and stalk, there are also options to hunt from European style elevated stands as well.

- Drives to the hunting area may be 15 to 30 minutes, depending upon where the animals have been scouted.
- Spotting and stalking is the most common method of hunting for rifle hunters. Archery hunters may also spend some time sitting over wallows and watering areas, awaiting the stag to come in.
- There are also opportunities to hunt from European style, elevated stands for those who prefer to do so.
- Depending on the hunting conditions hunters return to the lodge for lunch and a siesta.
- You will return to the hills around 2 to 3pm for your afternoon hunt. In the evening we hunt until dark, but with just enough light to get off the mountain safely.

## DAILY ITINERARY

- Spotting and stalking starts at first light and continues until around noon.
- You will return to the lodge for lunch, and some time to relax, or enjoy a siesta.
- Hunters will again depart for their afternoon hunt around 2 to 3pm.
